

CENTER CONSOLES — 2 WEEKS AGO

Grady-White Canyon 326

by BRANDON FERRIS

Grady-White Canyon 326

Grady-White has plenty to show in Fort Lauderdale starting with its redesigned Freedom 285 (28' LOA, 9' 6" beam). On top of the sleeker styling, the upgrades are many, from the expanded windshield to the redesigned helm station and new optional shade cover for the bow. It is also debuting a brand new Canyon 326 (33' 1" LOA, 10' 9" beam), a new length in the center console family. Packed with fishing features, it is also a family-friendly boat. Case in point, the optional casting platform at the bow doubles as a table. Her big sister, the Canyon 336 (33' 6" LOA, 11' 7" beam), is also redesigned to incorporate a full height windshield integrated into the T-top and new console interior. gradywhite.com
