

Center Line Length	22'2"
Beam Amidships	8'
Weight w/o Engines (226/8)	3,385 lbs./3,510 lbs.
Maximum HP	500
Standard Fuel Capacity	200 gal.

SEAFARER 226/228

The Seafarer 226 and 228 are 22-foot walkaround cuddy cabin style models that are built for family-and-fishing-friendly boaters.

What sets the Seafarers apart are their easy operation and abundant storage and sleeping room. The SeaV²® hull, the comfortable helm and companion seating, plus the cabin and cockpit amenities make these a great investment.

Families appreciate the traditional-style transom in the 226, which offers comfortable jump seats beside the outboard motorwell, or the 228, which has room for rod holders and a 72-quart aft fish box.

The 49-sq. ft. cockpit has well-positioned gauges, a 190-quart insulated fish box or storage area and a divided, insulated fish box (80-qt. & 45-qt. sections). All boxes drain overboard by the natural force of gravity.

Occupants will enjoy the cabin, where a low profile hatch and two opening screened windows draw in fresh air.

Aboard the Seafarers, there is enough storage space for everything a family needs to enjoy a day on the water.

Whether you're looking for serious fishing capability or a family-friendly boat complete with an optional head, the Seafarer 226 and 228 do the job.
