

GRADY WHITE 275 DUAL CONSOLE

Grady White's popular Freedom 275 dual console features an expanded helm area and reconfigured deluxe seating for cockpit spaciousness. Forward, the anchor locker features a through-the-hull chute for easier anchor deployment and a clear deck. There's seating room for six people on port and starboard bow box cushions. Aft, the entry to the lockable port console with head is wider for easy access, and the new bow layout allows storage for longer rods in the console. Widening the helm area added generous seating space for increased comfort. Standard helm seating is a deluxe horizontally and vertically adjustable chair that can be upgraded to a cushioned contoured seat with flip-up bolster. Companion seating is wider and is backed by an electromechanically extendable lounge seat, all on a rugged, durable fiberglass base.

The optional deluxe wet bar now faces inboard, and is located just behind the helm seat and has a Corian countertop, sink, fire extinguisher holder, storage and trash compartment and can be equipped with a grill and refrigerator.

The cockpit space is enlarged and includes an aft folding bench seat, 165-quart lighted fish box and an additional 96-quart fish box to starboard, fresh and raw water washdown, 32-quart livewell and four rod holders. The standard hardtop features a painted aluminum frame, storage net, speakers, LED spreader lights, tri-colored LED recessed lights, radar flat and outrigger plates. An integrated swim ladder with transom door access is also provided. Five hull gelcoat colors and two paint colors are available. **Contact:** Grady White at 252-752-2111 or visit www.gradywhite.com.
