For 2016, the popular Freedom 275 dual console adds an expanded helm area and reconfigured deluxe seating for cockpit spaciousness. It has a wider port console entry, a new wet bar setup, plus refined features both standard and optional. A widened helm area also adds generous seating space for increased comfort. The optional deluxe wet bar now faces inboard, and is located just behind the helm seat. The aft cockpit working space is enlarged so there's more room to play, fish or just chill. It's available in one of five hull gelcoat colors or two paint colors.
